Appearance	:	Thick Paste
Squeegee	:	Soft-Medium Durometer
Stencil	:	Water-resistant
Wash-up	:	Water / Mild detergent
Reducer	:	Water upto 2-3%
Curing / Fusion	:	320° f /160° C
Ph Value	:	7.5 – 8

Application:

K-flock 321 is ready to use flock binder, which can be used for flocking on nearly all type of fabric with excellent fastness, and soft feel, to ensure best result on knitted fabric K - flock 321 must be printed twice before flocking. required fixer is to be added before printing.

Pot life of paste after adding Fixcer is around 8 -10 hrs.

Care must be taken to check the required fastness properties before production as fastness varies on different fabrics also finish on the fabric affect the fastness.

Shelf life: Texaprint is not subject to a particular limitation of its shelf life, as the ink contains water. It must be protected from fungus. We recommend to close opened cans very thoroughly.

Mix well before use.
